A relaxing hideaway

Abeli cord armchair · Dalia PET cushion cover

The Abeli armchair is designed with your relaxation in mind, either indoors or outdoors under cover.

Add style to your spaces with materials like this rope and its cool, current colour. And, of course, you'll need some planters with different heights to give your plants a fitting display.

What is terracotta?

It's a type of clay and a natural material usually crafted by hand using traditional techniques. With a name meaning 'baked earth', traditional terracotta is everywhere on modern exteriors. Frequently used in construction and sculpture, it's now a go-to material for interior stylists looking to use natural, sustainable materials.

Oh!MamiBlue's new home

Among Spain's top influencers, Oh!MamiBlue are Verónica and Jana, two women who share their stories and raise the visibility of a different way to raise a family, on their Instagram account (@oh.mamiblu) and blog. Today they open the doors to their home and sanctuary, where they bring up their son Alex. Shall we go inside?

Meet you on the sofa

Check out their new living-dining room. It plays a crucial role in this home, where the top priority is enjoying time together and sharing experiences as a family. They chose the Blok sofa in pink corduroy for this space and it's quickly become Alex's favourite hangout. A place to feel comfortable, relax and play.

For Jana and Verónica, it's important for Alex to know that his opinion counts and plays a part in family decisions. He has helped the couple to

forge an even closer bond and is a constant source of inspiration and creativity. So, this is a space for all three to enjoy, as a family.

Creativity is served

The table chosen for the dining area is Alaia - a designer piece made from wood sourced from sustainably - managed forests with responsible felling. Natural materials clearly set the theme in this space, creating a calm and peaceful atmosphere.

To complement the look, Jana and Verónica have chosen the matching Alaia bench from the same collection, and Shann chairs in beige. The ideal choice for a dynamic, functional room.

The new drawing, writing and imagining corner is more than ready.

Much more than lighting

Natural materials have a

calming, illuminating effect. Star pieces such as the Delsie TV stand, Push shelves or Slover bench, made from solid wood, combined with the Doc rug or Louisa mirror help to create a visual harmony. There's a pop of colour courtesy of the Chleo velvet chair in mustard and the cushions on the bench. A bold choice that combines different colours and textures. The Oh!MamiBlue style is impossible to define - a creative blend of influences makes this house as unique as its owners.
